MOHAVE'S BIG GOLD CAMP.

A RANDSBURG MINE BRINGS QUARTER OF A MILLION.

al Lands in the Clark's Fork Country-Gold on the Shores of Iake Winnipeg-The Olympic Hange in Washington to Be Pres-pected-Many Nen Starting for the Yukon, LOS ANGELES, Feb. 27 .- At Randsburg the gt. Elmo mine, six miles south of the town, has been sold to the Randeburg & St. Elmo

improvement Company for \$250,000. This company is an association of Los Angeles capi-talists interested in the Randsburg district. E. H. Gould is the manager of the mine. A shaft will be sunk at once to develop the mine and obtain water. Shafts have been sunk on the ledge at eight places, long distances apart, and the lowest return from the milled ore has been \$33 per ton, while selected ore has run as

high as \$1 a pound.
Some of the Handsburz miners have been prospecting with a subsoil plough. They hitched up eight horses and ran furrows two feet deep across, their claims for the purpose of developing stringers. The method was very success

foot vein has been at ruck, forty fast of which is solid ore carrying from 3 to 5 per cent. of sul-phurets, and vielding well in free gold. The remaining part of the ledge carries a softer character of quartz, but is equally rich in free gold. The Tom and Dick mine, owned by At-kinson & Taylor, has been bonded to Messrs. Hashins & Chase, who are putting up on it a ten-stamp mill. The old Soracco, or Alta, mise has been bonded to a new company, which will, begin work upon it at once. The Plymenth Rock mine has been sold to Messrs. Brown

A Parsons of San Francisco.
In Butte county, on the west branch of Main Butte Creek, new mines that promise well have been opened by Lambert & Co., and by Rean & Barry. In the Oroville mine a chan-

nel of pay gravel has been struck.

The Sugar Pine mine, on San Domingo Bidge, Calaveras county, has been bonded to McCay & Trethaway for \$0,000. A 45-foot shaft has been sunk which exposes a two-foot vein of rich ore. At the dwin mine work is being prosecuted on the 1,209, 1,300, and 1,400 foot levels, keeping the forty stamps going bear sold, and the new owners are preparing to sink a 1,000-foot shaft. In El Dorado county, a number of old mines

are being reopened, among them the old Barnes property, sometimes called the Green-tone The long abandoned Columbus mine, pear Cold Springs, in its time a rich producer from shallow workings, is about to be reopened by a number of capitalists. On the old Jeffries gravel claim, near Placerville, which is under bond to Gracter & Doane, work is progressing favorably. Milling operations will soon be begun. On the lower end of the aban-dened Springfield a new ten-stamp mill is working the tailings of the old-time property. It is operated by Williams & Harpending, and is called the Union mine. The old Buena Vista mine is being reopened. It is reported that a very rich body of ore has been encountered on the 600-foot level of the Taylor, or Idle-wild, mine.

recy rich body of ore has been encountered on the 600-foot level of the Taylor, or Idlawid, mine.

The Washington mine, San Dieg. county, has been leased for two years by Messrs, Grirsby, Plant, and Hewitt brothers.

The expert employed by the North Star Mining and Milling Company to evamine their Yorth Star, Gyosy Gybsy Maid. Hobtail, and Broncho Jim mines, in the Virginia Dale district, San Hernardino county, has reported 17,000 tons of ore in sight, at a valuation of \$140,000. The company has decided to sink the shaft bou feet to 700 feet decreer, and develop the mines without milling any ore at present.

In Shasta county a rich strike has been made by George V. Jackson and Frank Perkins on Mule Town Mountain, ten miles from Redding. They traced for a mile up the mountain a i dge of base ore lifty feet wide, which averages \$25 per ton. In a deep guion the ledge is exposed to a depth of fifty feet. The ore carries gold, silver and copper, and can be mined at slight expense. On the McCloud River some rich placer dignings have recently been discovered eight miles above Haird.

All over Siskivou county the hydraulic mines are star ins up and will be kep in operation until next summer. In the Salmon River country and along the Klamath some large blants have been put in during the last few reas, and there will probably be a large increase this year in the output of gold from this county.

In Tuolumne county a rich strike has been made in Shaft No. 3 of the Santa Yashel group. The Gerrymander mine has struck a good vein of ore. At the Mammoth the big strike recently made still holds out. The pay streak covers six feet of the ore vein. Near Campo Seco another rich strike has been made at the Fleming vein.

MONTANA.

BUTTE, March 2.—The fact that the incorporators of the reorganized Butte & Boston Combany are practically the same as the incorporators of the Boston & Montana Company, leaves to doubt that both companies will be operated under the same management. Before it went into a receiver's hands, the Butte & Boston Company had acquired fifty copper properties at an expense which the company's finances could not stand. Much development work must be done on these properties before the Butte & Boston can again become a dividend page.

payer.
The present shaft of the Grey Rock mine will and the mine ex-The present shaft of the Grey Rock mine will be sunk to a greater depth, and the mine explored. At the Silver How mine men have alleady been put at development. The shaft of this mine is down 700 feet, but the lead has sluched south so rapidly that it has been found too expensive to follow it from the old shaft, and a new working shaft will be sunk on the diarrigation blacer, just south of the Silver How. The company is prepared to spend a large sum in the necessary development of its properties before it resumes the extraction of ore.

properties before it resumes the extraction of ere.

The Invincible Gold Mining Company, recently organized in Butte, is singing a shaft on the Durand claim, which is only 1.500 feet from W. A. Cara's tamous May Flower mine. Famples taken from the lead assay as high as \$18 in gold per ton.

The annual report of the Hecla Consolidated Mining Company is just out. The production for 1896 was 382.735 oances of silver, 2.776, 805 pounds of lead, 3.358,039 pounds of silica, 1.510,529 pounds of iron, and 1.784,405 pounds of amo. The net value of the builton was \$283, 454, 500.

The set oash profit was \$26,372. Since its incention the company has paid in dividends \$1,145,000.

The Alax Mining Company of Helena has come into possession of the great Stray Horse mine, tiking up the bond of \$75,000 given a year ago.

of unknown extent has been made indesorta company has taken an option mines of the Jasophine Gold Mining ay, near Montana City. The company ree mines the Laura Mack, June Eug.

d consider.

Idano Chry, Idaha, March 1. There are distincted.

Idano Chry, Idaha, March 1. There are distincted in the many first district this year. The mines need by Beta William are looking better than well by Beta William are looking better than the look and at greater depth. The veins very large and rich in free gold.

The reads to the Illiam's and Sub Ross mines dambrians district, have been opened and polies will soon go in. William O. Sheda discording on them, and has made one ment on the Illiam's. He will employ a dinumber of influers as soon as spring opens, the Illiam's a vein not before known to exist a discovered a short time ago. It is very he reports from France.

ports from Florence are that the work the mines during the winter have dethem into valuable properties, and that early two or three more mills will go up its year. This is one of the newest of quartz districts in the State, and may were among the most valuable. Flores a thriving placer camp in the early it was soon worked out and almost slandoned, only a very few men having district. These placers were on the mint of a high mountain—zo level that

feet these same opened out into veins from one to four feet in width of good ore. It is now evident that the placers, which were the richest ever discovered on the continent, were made by the walls pressing the soft ore to the ourface, where it gradually went away, leaving the gold in streaks across the flat, which was about a mile in di. meter.

Beports from Elk City are that the mines there are also developing into valuable properties. A mill has lately commenced crushing and as soon as the machinery can be taken in two or three more will be erected.

ARIZONA.

ties. A mill has lately commenced crushing and as soon as the machinery can be taken in two or three more will be erected.

ARIZONA.

TUCSON, Feb. 20.—W. R. Lynch is in from his Banner mine, which he has been chloriding for some months, and with good results, making the mine more than pay for development. Dr. P. H. Purcell and Martin Lynch have locatel what is believed to be a rich gold prospect about twenty miles east of Tucson. A sample of two sacks of ore taken from across the vein had a mill test yesterday, and gave a result in gold of \$24.06 and \$2.66 in silver. The vein is strong, and a force of men will be put on at once to develop it. It has been named the Gold Hug.

Wheeler & Perry of this city have for a long time been prospecting for mineral in the Sierritas, and their efforts have at last been rewarded by the discovery of a ledge which promises great things for the owners. Last week the men ran upon a three-foot ledge of mineral which shows an average of 250 ounces per ton in silver, and 20 per cont. copper. The continuation of such a body of ore means wealth for the cweers. This discovery will lead to opening up a number of other promising claims.

Between Jerome and Verde there are over sixty men prospecting, most of them having gone there recently on account of the striking of a large ledge, assaying high in gold and silver. There are sixty men extracting ore from the Resemont, and hauling it to the amelter, which is expected to blow in in a few days. All the properties of the Resemont are development work on the Pierce mine is down to the 300-foot level, and at the ore which is shipped by the railroad averages \$130 per ton. Of course, this leaves a large amount of low grade ore on the dump, which is estimated at about 30,000 tons, which will average \$25 per ton.

For December last the output of the Arizona Copper Company at Clifton was 437,798 pounds of matte.

NEW MEXICO.

Silver City, N. M., March I.—Heavy snow

pounds of matte. The total output of this company for 1896 was 7.572,570 pounds of copper and 7.679,462 pounds of matte.

Silver City, N. M., March I.—Heavy snow in the northern part of the Territory is interfering with mining operations there. The new smelter at Red River City has not yet been blown in because the snow is so deen that neither ore nor supplies can be obtained. It will be started as soon as the snow melts enough to peruit of the transportation of ore.

The Fox & Edisor group of mines has been sold to Cleveland, O., men for \$25,000, and other properties in the Red River district have been bonded.

The Franklin Mining and Placer Company has hydraulic machinery all ready to commence placer mining on Red River as soon as the snow goes off. This placer district is one of the richest in the Territory, and has been worked in a primitive manner for many years. The cold output of this region this year will be much larger than ever before.

The owners of the Gold Standard mine, near San Pedro, are sinking the shafts on the mine as vanidly as possible, and are setting excellent results. The rich ore continues, and there are no indications that the vein will pinch out. No gold mine has ever been found in New Mexico that produced more gold for the amount of work done than this mine. The prospect is good that this will prove to be the richest gold strike ever made in the Territory.

The smelter at Mardaiena is treating from 80 to 100 tons of ore daily from the Kelly mine, and the owners are shipplus some of the high-grade ore to Colorado. Only the low-grade ore is being treated in the Mardaiena smelter.

The heavy snows in the minimals will insure a good supply of water for placer mining in southern New Mexico this year, and work can be commenced in this county and Sierra county very soon. Placers which have been worked for more than twenty-five years still yield good results, and placer miners make good wages during the season.

LTAH.

The expert employed by the North Star Mining and Milling Company to examine their North Star, Gyper, Gypay Maid, Bootail, and Broccho Jim mines, in the Virginia Dale discovered with the Start Law City. Feb. 20.—Recent development of the Start Law City. Feb. 20.—Recent development of the Mining and Start Law City. Feb. 20.—Recent development of the Mining and ore at present. In Shata county a rich strike has been made by George Y. Ackson to it frank Forkins on diag. They traced for a mile out the mountain a idee of base ore infly feet wide, which averages \$25 per ton. In a deet guide the iedge is exposed to a deoth of fifty feet. The Greaters gold, silver and copper, and can be filter some rich placet dischors have recently been discovered eight miss above haird.

All over Siskivon county the hydraulic mines are star ing up and will be kep in operation until next stummer. In the Salmon River Shirts No. 3 of the Salmon River Shirts have been put in dualty have been put in dualt

sainzed here with a capital of \$100,000. The Silver Queen Mining Company has also been incorporated with a capital of \$300,000, and will operate in the Wild Cat Mountains of hunder.

W. I. Higgins of Montana has just purchased the Miller group in Plute county for \$90,000, paving \$15,000 down. The properties are to be developed on an extensive scale and a mill will probably be erected during the coming summer.

DEADWOOD, S. D., March 1.—The new owners of the Carroil, Sunset, and other properties, Messrs, Loley, Drew & Little of Chicago, have begun developing on a large scale. In the Sunset they now have exposed a face of ore for feet wide, which averages \$22 to the ton in gold. Their Carroll mine has been a small shipper for several years, and has paid all expenses for development. They expect to be in position soon to take out from 130 to 200, tons aday, and then they will begin the erection of smelting works.

At Ragged Top, Starner Brothers, owners of the Eva and Silver Tongue lodes, have received their first smeller; returns, amounting to \$1.181 net on twenty tons of ora, the amelier charges for which were \$11 more to the ton, making a total value of \$70. The owners of the Metallic Streak have some thirty tons on their dump waiting shipment, which assays about \$55 per ton. They have a two foot vertical vein has been found on the Balmoral group that assays \$80 to the ton. The Ellenberg Fraction is now the property of the Syndicate Mining Company, which has bought the propertical vein has been found on the Balmoral group that assays s80 to the ton. The Ellenberg Fraction is now the property of the Syndicate Mining Company, which has bought the propertical vein has been found on the Balmoral group that assays as one town. The D. & D. Smelter Company has bought a fourth interest in the Balmoral and Ancher group of claims.

John Pierce of Sioux City, who recently secured on the same and the mills. It is to double the capacity of the Highland mill, which now has 140 stamps, making it one of the three largest halls

tons that will assay 50 to 60 per cent, copper.

LARE WINNIPEO,
WINNIPEO, Manitoba, March 1.—About six months ago cold was discovered on the shores of Lake Winnipeg, at the northern end of the province of Manitota. Since then work has been carried on steadily by a few men, and now there is every reason to believe an excellent discovery has been made. The rock is much like that of the Lake of the Woodsand Rainy Lake regions, the ore is free milling, and runs well in gold. Some 200 claims have been taken at fille River a displit Rock, mostly by Winnipeg men, and development shows a rapid increase in value as depth is attained. An average value of from 50 to \$10, to the ton, free milling, is claimed.

WASHINGTON.

washington.

Washington.

Seattle, feb. 27.—Expeditions for the exploration prove among the most valuable. Floration of the Olympic range, on the west wholly also more washington, will be outflitted in Seattle also more down worked out and almost coast of Washington, will be outflitted in Seattle also more placers were on the waster hardly moved. Two or three years ago as similar expedition started from the prespectors became convinced that as the washed away the gold was left without being washed down the streams, so they commenced thaing on the small seams toat showed at the stream. On going down from twenty to fifty

this range, bore lestimony to the contrary in their production of float or fine gold. The region to be explored embraces a country much larger than some of the Eastern States, and the results will be observed with interest.

Last season some good discoveries of mineral were made on Howard Creek, one of the main branches of the North Fork of the Skykomish River. Several locations were made, and canital has been interested sufficient to thorough which were not been the new district is in the bead of the great copper belt of the Cascades.

In Deer Creek the St. Loais mine is driving a cross-cut at the rate of circh the leaf of the great copper belt of the Cascades.

In Deer Creek the St. Loais mine is driving a cross-cut at the rate of circh the leaf is read to come the common of the copy o

connection with the railroad. This will make a shorter and easier route between south-eastern Alayka and the rich gold fields inland.

BRITISH COLUMBIA.

SEATTLE, Feb. 27.—The bullion and ore shipments from Kootenai are daily increasing and at the present rate will amount to over \$8,000,000 this year. This increase is attributed to the great number of small mines that are engaged in rawhiding their ores from the mines down the mountains to the railroad stations and steamer landing. This ore had accumulated on the dumps, and the snow on the mountains affording good sledding, this old method of transporting from mine to market has generally been adolted, and from one to two tons are taken at one trip.

W. H. Fife of Tacoma representing an English syndicate, made another offer for the Le Roi mine this week, but the owners refused to entertain it. The proposition was \$100,000 cash and \$3,900,000 in thirty days. Another dividend of \$20,000 has been declared by the company, nayable to-day, which makes a total of \$320,000.

In Landeau district the True Fissure mine has been bonded to the toold Field Company for \$50,000. The property adjoins the Great Northern, one of the first ship, error of the district, and is rewarded as good property.

Buffalo men have purchased the California group of mines near New Denver, the consideration being \$60,000. To nor cent. cash. On Dayton Creek the same men have secured the Hecla for \$30,000.

In Landeau district the Wagoner brothers, who have soont ave years prospecting, have sold their group of five claims for \$82,000 to London cantisties, who are arranging for devisionment and shipments.

The Houghton group, in the same district, which is owned principally in restors and an offer of \$50,000 was made, but not accepted. This activity in emining sales is caused by the productive condition of the mines and the values in sight.

In the Tariff mine, Ainsworth camp, at a death of sixty feet, the ore body on the south drift has widened to three feet solid shipting gale m. At the bottom of

iar amount of fine concentrating material.

A new camp has been opened up on the Blackwater in Lilloost district that is showing rich ore from the surface down, going from \$500 to \$400 in gold. A hundred claims have been located and a great deal of prospecting is being done.

The roads leading into the Cariboo gold fields from Ashcroft on the Canadian Pacific have been lined with freight teams all winter, engaged in transporting mining machinery and provisions for the mining camps in Cariboo and Omenica.

More Room for the Crescent A. C. The Crescent A. C. of Brooklyn has found its spacious quarters in Clinton street inadequate to meet the demands of the organization, and the three-story building adjoining has been rented as an annex. The parlor floor of the new building will be used as a reading room and building will be used as a reading room and library, and there will be a dozen or more bach-elor apartments on the upper floors. There will be an entrance to the annex from the present billiard room. The contemplated changes pro-vide for the introduction of two additional billiard tables.

Odds and Ends of Sports.

The challenge of Joe Thum to match two of his New York interstate League team against two of the Brooklyn team for \$100 a side has been accept-ed by Joe Wingenfeld, who selects Brill and Paul-son for Brooklyn. The first series will be played at the Germania Assembly Room's alleys on Tuesday, March 23.

E. Lawlor of Greenpoint is out with a challenge to play Pai Barrett for any reasonable stake. His side partner, T. Biggins, is equally anxious to meet E. Hopkins.

There will be a grand reunion of experts at the Brookin Club's court on Wednesday afternoon,

Brooklyn Clubs court on Wednesday atternom, M. Kg n and James Flaherty of Jersey City and Cashman of Manhattanville being among those in-vited. Frod. Coggins expects to bring about an ex-hibition match between Egan and Fitsgeraid.

lastic games at Mechanics Hair years points at school took a commanding lead in points at the start, and was never troubled for the coveted token of superiority, which it won with 2416 Riverdale 12 points. Perhaps the finest event of the day oriental 13 was the exhibition run of the Harvard relay team against the record for the track, 3 minutes 15 seconds. The team was made up of a Riverdale 11 Rosedale 12 Rosedale 11 Rosedale 12 Rosedale 11 Rosedale 12 Rosedale 11 Rosedale 12 Rose utes 15 seconds. The team was made up of a quartet of finish d runners, and without the ncentive of competition the Cambridge men

quartet of finish d runners, and without the incentive of competition the Cambridge men made the course in 3 minutes 12 3-5 seconds. The times by relays were: Bigelow, 48 2-5 seconds; Vincent, 49: Fish, 47 3-5: Hollister, 47 3-6. Summaries follow:

40 Yard Dash—Won by H. C. Kennington, Euglish High; W. J. Duffy, A. H. S., second; H. J. Kane, E. H. S., third, Time, 44 seconds. Haif Mile Walk—Von by W. F. Monan, E. H. S.; G. F. Riler, E. H. S., second; F. M. Foley, E. H. S., third, Time, 44 seconds. J. H. Sanover, S. G. F. Riler, E. H. S., second; F. M. Foley, E. H. S., third, Time, 44 seconds. J. H. Sanover, S. G. F. Riler, E. H. S., second; F. M. Foley, E. H. S., third, Time, 3 minutes 47 45 seconds. J. H. Sanover, S. G. F. Riler, E. H. S., second; F. M. Foley, E. H. S., third, Time, J. M. Harnard, Newton High, third, Time, 1:45.

45 Yard Hurdle Haces—Won by J. H. Converse, E. H. S., third, Height, M. Foley, E. H. S., second; H. Koen, Hopkinson, third, Time, 1:45.

Polic Vault—Won by J. A. Shorey, Cushing Academy H. R. Eendall, Worcester Academy, second; H. Keen, Hopkinson, Univil. Height, M. Foet 6 inches, Polic Vault—Won by J. A. Shorey, Cushing Academy H. R. Eendall, Worcester Academy, second; H. Keen, Hopkinson, Won by Canaunce High in Si39 4-5.

Relay Race Between Dedham and High Fard Boston Lame—Won by Newton in Si32 4-5.

Relay Race Between Lambridge High and Latin and Hopkinson—Won by Canauncey Hall and Phillips Exter Academy—Won by Canaunc

The result by points follows:
English High, 244; Worcester High, 10: Hopkinion, 93; Noble and Urrennugh, 7; Worcester Acadeny, 6; Chauncey Hall, 5; Cambridge High and Latin, 1;
Rewton High, 1; Phillips Exeter Academy, 1.

A special meeting of the New York Women's League tournament will be held at Retail Grocers' Hall on Friday afternoon, March 1v, for the pur-pose of making arrangements to distribute the prises. prizes.

The leaders for the individual prizes of the Inter-cint, League of Brooklyn are, Dr. Grosch, Handwer Club, 175 1 30; Burlien, Columbian Club, 172 18 30; Parser, Aurora Grata Cibb, 178 16 30. The latter asio leads for the spare prize with a record of 163. Brooklyn clubmen are greatly interested in the games the Carleton Club bowiers will play on next Friday and Saturday nights at Melrose and Boston. The team selected by Capt, Frantish is as follows: John A. Stoner, J. S. Van Ricken. Jeorge Mason, Charles II, Etoets, and Joseph Frankish.

The players who are to compete in THE SUE in-dividual championship tournament will hold a meeting at the dermanta Assembly Rooms on next Sunday aftermoon for the purpose of adopting reg-ulations to govern the tournament. With one or two exceptions Joe Thum has made his selections, which will be announced the latter part of this week.

which will be announced the latter part of this wees.

Seven of the bowlers in the Wholesale Drug Trade Association tournament have an average over 180. They are as follows: Farnes, of Colgate & Co., 1615; Martens, of Dodge & Glebat, 1904; Smith, of R. W. Rothnson & Sun, 136 1 0; Loeffer, of Max Zeller, 103 8-9; Colgate, of Joigate & Co., 189; Howe, of Dodge & Olcott, 1898 5-9; Ruddimann, of Dodge & Olcott, 1808.

On next Wednessay night the Star, Logan Wheelmen, and Central teams will play for the fourth prize of Rhaugimessy's Brooklyn tournament, James Wilson of the Prospects won first average and iesat number of breaks prizes; Wallers, Roche, and Sorenson, all of the Reineckes, won respectively second, third, and fourth average prizes. Halloran of the Kameless won the high score prize.

Club Records in Many of the Importan Clever exhibitions are the rale in headpin, Royal Arcanum and other tournaments, and the result is a constant improvement of records The standing of clubs up to date follows: UNITED BOWLING CLUBS, HEADPIN TOURNAMENT
